Children's Co-op is a nonprofit, non-denominational preschool that provides child-centered, developmentally appropriate programs in a family friendly, nurturing environment. We celebrate the whole child through play. Our seasoned teachers bring many years of experience in early childhood education to our school. Parents commit to being actively involved in the co-op, working in the classroom about twice a month and attending monthly parenting presentations and discussions. Affiliated with Whatcom Community College, our cooperative preschool offers four programs:
